### BOND ISSUE CALLED CLOAK OF DECEPTION

CAPTAIN MAY SAYS IT IS TO HIDE EXTRAVAGANCE.

Despite All This, the Board of Control by a Large Vote Decides to Fix the Tax Levy at Fourteen Mills and to Issue \$100,000 Worth of 4 1-2 Per Cent Bonds to Clear Up the Indebtedness Existing and Imminent—Treasurer Given a Raise.

Fourteen mills of a levy and a \$100,000 issue of 4 1/2 per cent. bonds was decided upon last night by the board of control as the means of meeting the school district indebtedness for the coming year. Captain May opposed the bond issue, characterizing it as a subterfuge to hide the board's extravagance, and saying that the only honest method would be to declare a nineteen mill levy, confess to the people that the board has been extravagant, and promise that it won't occur again.

Captain May and Mr. Schreifer were the only members to vote against the bond issue, though Mr. Barker, it was understood, only voted for it that he might be in a position to move for reconsideration if a favorable opportunity arrived. Those who voted in its favor were Messrs. Shires, O'Malley, Eynon, Phillips, Roche, Golden, Dr. O'Malley, Schaefer, Neuls, Walsh, Evans, Barker, Langan, Schwans, Gibbons, Jayne, Messrs. Francis, Jennings and Leonard were absent.

The report of the finance committee containing the recommendation adopted, which was previously published in full, was read by the committee chairman, Mr. Evans. Its recapitulation is as follows:

LIABILITIES.	
General account	\$316,023
Shortage 1899 (estimated)	45,000
Building fund	50,000
Street lighting	5,000
Fixing up grounds around No. 2 and 3	8,500
Payments on loan under contract	17,934
Total	\$436,557

RESOURCES.	
Fourteen mill levy	\$476,728
State appropriation	66,708
Bond issue	100,000
Total	\$643,436

The difference between the estimated resources and liabilities will be more than made up, the committee figures, by the premium that will be received on the bonds.

**CAPTAIN MAY'S FIGURES.**

Captain May could not understand how the committee figured that only a \$2,000 deficit was in sight. According to his figures the deficit, even with the bond issue, would be \$17,930,000. His figures were as follows:

General account	\$316,023
Shortage 1899 (estimated)	45,000
Total	\$361,023
Levy of 14 mills on general account	\$476,728
State appropriation	66,708
Total	\$543,436

He could not understand the committee's way of figuring, and the committee could not understand his way. The committee was confident the way was the right way, and the board accepted it.

Captain May's comments of the proposed bond issue were interpreted to be a subtle and calculated attack on the board's conduct of school affairs during the past year as it was on the bond issue itself.

"Even with the bond issue," he went on to say, "you have a \$20,000 general account deficit in sight. You propose to make this good at the expense of the building fund. It is simply a deception to be practiced on the public. We have been extravagant, and to hide it we propose to issue bonds. Bond issues are generally supposed to be for contemplated expenditures. We would have the public suppose, such is the case in this instance. We should put the deficit in the tax levy and say to the people we were extravagant; forgive us this time and we won't do it again.

He did not say that the money has been dishonestly spent. All I charge is that we have been extravagant. The tendency of a bond issue will be to create further extravagance. This is true in any business and especially true in public affairs."

Mr. Gibbons characterized Captain May's sincerity and characterized his speech as being mainly an effort of one of the minority to prejudice the people against the majority members of the board. He also vigorously denied the alleged extravagance and made the claim that the district's indebtedness was comparatively small, being less than \$200,000.

Mr. Eynon presented figures to show that the net indebtedness April 12, last, was only \$241,808.91. Mr. Evans followed with a reminder that \$125,000 worth of new property was included in this indebtedness.

**TREASURER'S SALARY.**

The finance committee transmitted a communication from City Treasurer E. J. Robinson, calling attention to the fact that the transfer of the mercantile tax collections to the county treasurer's office had cut down his revenues from \$1,500 to \$1,300 a year, and asking that in view of the increased expense of his office growing out of increased business, he be allowed 1 1/2 per cent. commission on disbursements, instead of one per cent., as formerly. The request was granted by a vote of 11 to 2 after a motion to make it one per cent., was defeated on a roll call, as follows:

Ayes—Messrs. Phillips, Golden, Roche, May, Schaefer, Walsh, Evans, Schreifer, Barker, O'Malley, Shires, O'Malley, Eynon, Dr. O'Malley, Neuls, Langan, Schwans, Gibbons, Jayne.

Messrs. Phillips and Schaefer voted with the nine favoring one and a half per cent., when the one per cent. motion had been defeated. This increased commission will raise the treasurer's pay for handling school board funds from \$1,300 to \$3,000 a year.

The delinquent tax collector of the Eighth ward was directed to report a seventy-one per cent. exoneration on the Zion Lutheran church parsonage, so that the \$3,500 assessment was reduced to \$1,100 to conform with the city assessment. This roundabout means of correcting the assessment was necessitated by the fact that the board, under an opinion of Solicitor D. J. Reedy rendered some time ago, can not alter an assessment.

A communication was received from the Scranton Lodge of the National Association of Stationary Engineers, deprecating the practice of placing inexperienced men in charge of the steam plants at public school buildings. It

was signed by M. F. Murphy, president. The board referred it to the building committee.

On the recommendation of the teachers' committee, it was decided to close the schools Friday, June 22.

Mr. Gibbons entered a protest against the action of the building committee in awarding contracts for steel ceilings in the three new buildings without competitive bids being invited, but did not oppose the payment of the bills.

The Summit Avenue Presbyterian church and the Court Street Methodist Episcopal church were granted the use of a room in No. 20 building on Sundays. Captain May contended this was illegal, but when Secretary Fellows, at the request of Mr. Gibbons, read from State Superintendent Schaeffer's report on the school laws, that school buildings should not be permitted to be used for any other than innocent purposes tending to the improvement of the youth of the land, Captain May was left to vote singly and alone.

Solicitor D. J. Reedy was instructed, at the suggestion of President Jayne, to proceed with the preparation of the new bonds.

Prior to the meeting a delegation of the primary and intermediate teachers waited on the teachers' committee and presented arguments in support of their claim for an increase of \$15 a month for those of their number who have been teaching over fifteen years. They, at present, receive \$55 a month. The increase would not amount to \$800 a month, as there are only about half a hundred of the teaching corps who would be entitled to the raise.

### PHILBIN NAMED FOR LEGISLATURE

RETURN JUDGES HELD CONVENTION AT CARBONDALE.

The Candidate Made a Brief, but Manly Speech in Which He Said That He Will Work for the Best Interests of the District if Elected. J. E. Burr, J. W. Smith and William Correll Are the State Delegates—The Resolutions Reported and Adopted.

The convention of the return judges which opened the Republican primaries in the Fourth Legislative district on Saturday was held yesterday in Burke's hall, Carbondale. The convention was called to order by J. W. Smith, of Blakely, chairman of the district committee. S. S. Jones, of Carbondale, the secretary, read the call and the return judges presented their reports, after which the temporary organization was made permanent. Secretary Jones spoke of the good results that had followed the employment of the Crawford county system of conducting primaries, but produced perfect harmony, and he urged that the same harmony prevail during the campaign and that the district be again placed in the Republican column.

P. A. Philbin, of Archbald, was then declared the nominee for state legislature and J. E. Burr, of Carbondale; J. W. Smith, of Blakely, and William Correll, of Dunmore, his state delegates.

**MR. PHILBIN'S REMARKS.**

Mr. Philbin was introduced to the convention and made a brief address, expressing his gratitude for the honor conferred and promised to work for the best interests of the people, if elected, and for a permanent benefit to the district. With the encouragement given him and the faithful work that will be done, he felt confident that the Fourth would be again restored to its rightful place among the Republican districts.

The resolutions, consisting of J. F. Reynolds, C. A. Battenberg and William Evans, was appointed and while the resolutions were being prepared Mr. Smith made a brief address on the necessity of thorough work and the need of giving to the candidate for representative the hearty support. He was sure that the district could be carried by the Republicans this fall. The resolutions were as follows:

We, the representatives of the Republican party of the Fourth legislative district in Lackawanna county, assembled together, hereby affirm our unwavering allegiance to the traditions and principles of the Republican party.

We reaffirm our belief in the doctrine of protection and the laborer of America and favor any and all enactments which shall furnish industry to our country and thus enable all to earn an honest living at honorable toil.

We favor an increase of honest currency worth one hundred cents on the dollar everywhere.

We congratulate the nation upon the unparalleled success of the administration of William McKinley, which has been characterized throughout with wise statesmanship, lofty patriotism and devotion to duty as necessary to maintain America's position among the nations of the earth.

**FAVOR THE CANAL.**

We favor the building at an early date of the Nicaragua canal, which is so essential to the growth of our foreign and domestic commerce and to our protection in times of national crisis.

We congratulate the people of Pennsylvania upon the equitable administration of affairs by the Governor of this State, William A. Stone, and upon his representative in the United States senate, the Honorable Boies Penrose, who has so ably discharged the duties of his position.

We commend the able and prudent management in which our congressional district has been represented by the Honorable William Connel, our representative at Washington, D. C.

We hereby endorse the policy of the Honorable Galusha A. Green for the office of congressman-at-large and of Honorable E. B. Hardin for the office of auditor general.

We approve the able and faithful administration of the duties pertaining to the office of district attorney and that of probatory by the present incumbents, John R. Jones and John L. O'Connell.

We pledge ourselves to give our hearty support to the Republican ticket to be elected in November and to protect for it an overwhelming majority.

J. R. Reynolds, chairman; W. J. Evans, C. A. Battenberg, committee.

### MOODY'S OWN METHODS.

Recruits Pews and Gathering Up the Stragglers.

William R. Moody, in writing for the Saturday Evening Post the life of his father, Dwight L. Moody, tells many good stories of the famous evangelist. In one he says: "As a boy in Northfield he had achieved remarkable results in swelling the attendance at the Sunday school, and so, arguing from that, he conceived the idea that he could be of much value to Plymouth church as a recruiting agent. Having come to this decision he hired a pew with the understanding that he was to fill it each Sunday. Like everything else he undertook, he fulfilled his commission with intense earnestness and enthusiasm. He did not wait for the young men to come to church, but he went after them, stopping them on street corners, visiting them in their lonely rooms, and even calling them out on doorsteps. It was altogether new and strange and the novelty of the whole work had an irresistible effect, with the consequence that in a short time young Moody was renting six pews which he filled with his strange and motley guests.

There was a little mission on North Wells street and he applied for a class. He was told that the sixteen teachers were amply able to instruct the twelve scholars, but if he would provide his own class they would be very glad to have him. This was just what Moody wanted. Next Sunday he filled the door and led in a procession of eighteen little 'hoodlums' whom he had gathered from the streets."

### Twelve Hundred ARE OUT OF WORK

JERMYN NO. 1 AND 2 COLLIERIES AT OLD FORGE, IDLE.

No. 2 Was Shut Down About Three Weeks Ago and Yesterday the Men at No. 1 Refused to Go to Work. They Allege That Their Employers Have Not Kept Faith with Them. An Outline of Their Grievances on the Dockage and Other Matters as They Present Them.

Three hundred miners and laborers employed by Jermyrn & Co. at their No. 1 mine, at Old Forge, went on strike yesterday morning, throwing as many more men and boys out of employment. No. 2 colliery was shut down about three weeks ago, when rumors of a strike were prevalent at that place. About 600 men and boys are also employed at that place.

These are the collieries at which the men went on strike last October. The strike was finally settled late in November. An effort was made to operate the mines without the aid of the strikers during last fall, but they resisted and deputy sheriffs had to be employed to protect the workmen. The killing of Police Officer Patrick Rafferty and the serious injury to Officer Thomas McKenna by Thomas Laddon, who was convicted of murder two weeks ago, were an indirect result of the strike.

When seen yesterday afternoon, Joseph J. Jermyrn, of the firm of Jermyrn & Co., refused to make any statement concerning the strike. "I don't think the public are interested in this at all," he said, "and I must refuse to make any statement with reference to it."

### WHAT THE MINERS SAY.

The miners allege that they have a triple cause for complaint against their employers. One of the officers of the Mine Workers' union, at Old Forge, said yesterday:

"Things have not been going along very smooth since the last strike. At No. 2 there is a layer of soapstone rock from six inches to two feet in thickness over the coal. The custom was to leave this stand after the coal was removed and keep it in place by means of props, but so many men were killed and injured by falls of this stuff that the mine inspector ordered that it be taken down as fast as the coal was removed from beneath it. The miners did not feel they could do this additional amount of mining for nothing, and after a conference with Jermyrn & Co. were allowed fifty cents a yard for it. When the men went back after the strike they were not allowed for this yardage, and have not been at 'any time since."

"This displeased them, and when they noticed that men who had been in any way prominent in the strike were being discharged at every opportunity they became resentful, and there was some talk of a strike. When this became noised about the mine shut down for repairs and has since remained shut down. It has been idle now a little over three weeks.

### TROUBLE OVER DOCKING.

"At No. 1 shaft prominent members of the union were also discharged, and there was also a good deal of trouble over the docking. When we went back to work last November we did so on a verbal agreement that we would not be docked unless the amount of rock in a car exceeded 500 pounds. If it went over 1,000 pounds we wanted the miner called out and warned, and if he continued to load that much rock thereafter we would not oppose his discharge.

"This agreement has been ignored by our employers, who have been docking us right along for small amounts of rock, and they have docked us for putting small coal in the cars, although they afterwards screened and sold it. Friday we went to Joseph J. Jermyrn to talk over our troubles with him, but his conduct and language were such that our committee had to leave.

"When a report was made to the union of what had been done, a strike was at once ordered, and this morning when the whistle blew there was no one to go down to the mine.

"We will not go back until we have a thorough understanding about the matter of dockage and the discharge of union men. We also want a restoration of the yardage paid for taking down soapstone rock."

No attempt was made yesterday to operate either No. 1 or No. 2 by Jermyrn & Co.
